NYLON/STEEL 2-STORY FIRE ESCAPE LADDER
MODEL EL52W-2

This nylon/steel 2-story fire escape ladder is easy to use, and provides a reliable means of escape through a second-story window during a home fire.

FEATURES AND BENEFITS
• Use in two-story homes
• Strong nylon construction
• Fully assembled, ready to use
• Slip-resistant epoxy coated rungs
• Large hooks securely attach to windowsills
• Steel rung stabilizers on all rungs
• Extended to second-story windows directly above first floor windows
• The rung stabilizers could break a first floor window and cause injury

IMPORTANT!
TO WORK PROPERLY IN A FIRE EMERGENCY, THIS LADDER MUST:

1. Be Used On A Suitable Window...

This fire escape ladder is intended to be used on second-story windows that are structurally safe for the intended load. Do not use from a second floor window.
